SUMMARY

Architect (M.Arch, 2023) specialized in aluminium and glass facades: envelopes detailed from design intent down to the profile, the joint and the fixing, and drawing sets a contractor can build from. Modeling and rendering architecture since 2019 in 3ds Max, V-Ray and Lumion.

EXPERIENCE

Architect, aluminium & glass facades

Lebanon · Current

- Aluminium and glass facades detailed from design intent down to the profile, the joint and the fixing.
- 2D drafting in AutoCAD, 3D modeling in 3ds Max and rendering in Lumion.

3D artist, freelance

Lebanon · 2019 — 2022

- Architectural 3D models and photoreal renders, made in 3ds Max with V-Ray and in Lumion.

PROJECT

A Khan for Tripoli's Children

M.Arch final project · Tripoli, Lebanon · 2023

- A complete drawing set: plans for all nine levels, four elevations, and two sections, each also cut in 3D.
- Existing conditions drawn as found, a 300-year-old soap factory and seven shops, then carried into the new design.
